# Rahmin Shoukoohi

Software Developer

(770) 925-5248 | Atlanta, Ga | rahminshoukoohi@gmail.com | www.rahmincodes.com | LinkedIn | GitHub

## EDUCATION

**Software Engineering -** DigitialCrafts - Full Stack Web Developer Program
**Associates Degree -- Biology Pre-Dental -** Georgia State University

## PROGRAMMING LANGUAGES

**Back-end and Databases -** Node.js, Express, REST APIs, Python, Git, SQL, Postgres, Sequelize, Beekeeper, Postman
**Front-end -** React, Redux, Javascript ES6, Typescript, HTML5, APIs, CSS and CSS Frameworks

## PROJECTS

**Portfolio Website | rahmincodes.com | Github**
- This website was created to showcase my portfolio.
- The frontend was created using React/Redux, axios, react-router, materialUI, TailwindCSS, styled-components, and dotenv
- The backend was created using NodeJS, bcrypt, express sessions, sequelize, cors, email validator, expressJS, nodemailer, cookie parser, and multiparty

**GAINZZZ | Github | Initial Figma Sketch | Overall databse/website design**
- Website that allows users to browse over 2800 workouts and add them to your favorites.
- Ability for users to connect with personal trainers and view their rates and specialties based on the user's input
- Calculate BMI of any user when they enter height, weight, and age. Information tracked in real time within a graphing system
- Utilizes React, Redux, Javascript, HTML, CSS, Node.JS, Supabase, PostgresQL
- Project manager: Rahmin Shoukoohi. | Made in conjunction with Jason Blunk and Ethan Gula

**The Smuggler's Den | Github**
- Website that allows users to browse the lore and canon of Star Wars and have them printed on their respective pages.
- Ability for a user to add their favorite aspects of Star Wars to their favorites page, and the ability to remove them, if they so wish to
- Utilizes React, Redux, React Persist, Redux Logger, MaterialUI

**Joeva, Full-Stack App | GitHub | Website/Database concept and design**
- Project manager: Rahmin Shoukoohi. | Made in conjunction with West McMillen
- This full stack web app is an eCommerce website created revolving around our cohort instructor, Joe Fraiser.
- Site features use of Bulma framework, CSS, vanilla Javascript and HTML5 front-end, and Node.js, Express, and SQL ORM database back-end

**The Weather App | GitHub**
- This app lets anyone search for the weather in a certain city or zip code
- Utilizes React, Redux, Redux-Logger, Open Weather Map API, HTML5, CSS, and vanilla Javascript

**Star Wars: Escape from Cad Bane** | GitHub
- This app is a text-based adventure, escape style game played in the computers terminal. Utilizes Python language

## CERTIFICATIONS/ACHIEVEMENTS

**BoomTV Invitational,** 2020 - Rise Nation Valorant Team
**NSG Winter Championship,** 2021 - Built by Gamers Valorant Team
**NSG Summer Championship,** 2022 - Built by Gamers Valorant Team
**BoomTV Regional Invitation,** 2022 - Built by Gamers Valorant Team
**DigitalCrafts Web Development Bootcamp,** 2022 - Certificate of Completion

## MOST RECENT WORK EXPERIENCE

**Esports Athlete for Built by Gamers -** August 2021- July 2022 -**,** Frisco, TX
- *Engaged in team oriented practices that include, but is no limited to, a team of 7 individuals*
- *Oriented the practice flow from a week-to-week basis, and provided quality performance reviews to higher ups*
- *Traveled to multiple competitions both domestically and internationally*
- *Engaged in fan-revolved activities, including signing sessions, interviews, meet-and-greets, public appearances, and live competition for viewing purposes*

**Oral Surgery Internship**, - August 2017- May 2019 - **Atlanta Oral and Facial Surgery,** Marietta, GA
- *Shadowed daily under Dr. Wunderlee Jr.*
- *Maintained sanitation of the OR room*
- *Prepared utensils before patients are brought into the room*
